CLOUDPULSE

SERVICE LEVEL AGREEMENT

Cloud Hosting & Infrastructure Management Services

Agreement No.	SLA-2026-CP001	**Effective Date**	1 October 2026
Service Provider	CloudPulse Technologies Pvt. Ltd.	**Expiry Date**	30 September 2027
Customer	Acropora Retail Solutions Pvt. Ltd.	**Service**	Managed cloud infrastructure

PARTIES AND PURPOSE

This Service Level Agreement (the **“Agreement”**) sets out the service availability standards, incident response obligations, service credit framework and operational responsibilities applicable to the managed cloud infrastructure services supplied by CloudPulse Technologies Pvt. Ltd. (the **“Provider”**) to Acropora Retail Solutions Pvt. Ltd. (the **“Customer”**).

The Provider and Customer are each a **“Party”** and together the **“Parties”**.

1. DEFINITIONS

“Availability” means the percentage of total minutes in a calendar month during which the Covered Services are available for normal operation, excluding Excluded Downtime.

“Covered Services” means the cloud hosting and infrastructure management services identified in the applicable service order.

“Downtime” means a period during which the Covered Services are unavailable to the Customer due to a failure within the Provider’s controlled service environment.

“Service Credit” means the credit applied to an eligible service invoice in accordance with Section 6.

2. SERVICE AVAILABILITY COMMITMENT

The Provider will use commercially reasonable efforts to maintain monthly Availability of at least **99.95%** for the Covered Services.

Availability will be calculated for each calendar month using the following formula:

Availability (%) = ((Total Monthly Minutes − Unplanned Downtime Minutes) ÷ Total Monthly Minutes) × 100

The Provider will maintain monitoring records reasonably sufficient to substantiate the monthly Availability calculation.

3. DOWNTIME ALLOWANCE AND MEASUREMENT

For a 30-day calendar month, the availability commitment corresponds to a maximum of **21.6 minutes** of unplanned Downtime.

Downtime will be measured from the time the Provider’s monitoring systems first record a qualifying service interruption until restoration of the affected Covered Services.

Where the Parties’ monitoring records differ, the Parties will review the relevant timestamps, incident records and supporting telemetry in good faith.

4. INCIDENT RESPONSE AND REPORTING

The Provider will acknowledge a critical incident within **15 minutes** after detection or notification, whichever occurs first.

The Provider will provide an initial incident report within **2 hours** after acknowledgement.

A detailed root-cause analysis will be provided within **5 business days** after service restoration, where reasonably practicable. The report will describe the incident, its impact, the cause identified and corrective actions.

5. SCHEDULED AND EMERGENCY MAINTENANCE

The Provider will give the Customer at least **48 hours' prior notice** of scheduled maintenance expected to affect the Covered Services.

Scheduled maintenance notified in accordance with this Section will be treated as Excluded Downtime for the Availability calculation.

Emergency maintenance may be performed where reasonably necessary to protect service security, integrity or continuity. The Provider will document the reason, duration and impact of the maintenance and notify the Customer as soon as reasonably practicable.

6. SERVICE CREDITS

If monthly Availability falls below 99.95%, the Customer may request a Service Credit calculated as a percentage of the monthly fee attributable to the affected Covered Services, according to the following table:

Monthly Availability	Service Credit
At least 99.90% but below 99.95%	5% of the monthly service fee
At least 99.00% but below 99.90%	10% of the monthly service fee
Below 99.00%	20% of the monthly service fee

Service Credits are the Customer's sole and exclusive monetary remedy under this Agreement for a failure to meet the Availability commitment, except to the extent prohibited by applicable law or expressly provided otherwise in a separate written agreement.

7. CLAIM SUBMISSION

The Customer must submit a Service Credit claim within **30 calendar days** following the end of the calendar month in which the qualifying Downtime occurred.

A claim must identify the affected service, incident reference, relevant dates and times, and the basis on which the Customer considers the Availability commitment to have been missed.

The Provider will review a complete claim and communicate its decision, including the calculation applied, within a reasonable period.

8. EVIDENCE AND RECORDS

A claim should include, where available: (a) incident start and end timestamps; (b) monitoring or telemetry records; (c) a description of the affected services; (d) the incident identification number; and (e) supporting records showing service unavailability.

The Provider may request reasonable additional information to assess a claim. Each Party will retain relevant incident and service records in accordance with its ordinary record-retention practices.

9. EXCLUDED EVENTS

The Availability commitment does not apply to Downtime resulting from: (a) scheduled maintenance notified in accordance with Section 5; (b) failures in Customer-controlled systems or networks; (c) force majeure events beyond the reasonable control of the affected Party; or (d) third-party systems outside the Provider's reasonable control.

The Provider will not rely on an exclusion to the extent the relevant event was caused by the Provider's breach of this Agreement or failure to take reasonable steps within its control.

10. MONTHLY SERVICE FEE AND CREDITS

The monthly service fee for the Covered Services is **USD 14,500**, exclusive of applicable taxes and any separately agreed charges.

Approved Service Credits will be applied to a subsequent invoice. Service Credits are not redeemable for cash and may not exceed the fees paid or payable for the affected Covered Services in the relevant month.

11. DISPUTE RESOLUTION

The Customer may dispute a Service Credit decision by providing written notice within **15 business days** after receiving the decision.

The Parties will refer the dispute to their respective contract representatives and attempt in good faith to resolve it through documented discussions before pursuing any other remedy available under the governing agreement.

12. GENERAL

This Agreement applies during the term stated above, unless earlier terminated in accordance with the applicable master services agreement or a written agreement signed by both Parties.

Any amendment to this Agreement must be in writing and approved by authorised representatives of both Parties.

If a provision of this Agreement is held unenforceable, the remaining provisions will continue in effect to the extent permitted by law.

13. COMMERCIAL PARTICULARS

Monthly service fee	USD 14,500
Availability commitment	99.95% per calendar month
Critical incident acknowledgement	15 minutes
Initial incident report	2 hours
Root-cause analysis	5 business days
Service credit claim deadline	30 calendar days

EXECUTION
